Address Matching System Application Program Interface (AMS API) Developer's Kit and Delivery Point Validation Application Program Interface (DPV API) Developer's Kit

This kit is required to access the AMS API and DPV API. The kit includes one AMS ZIP+4 database license, one DPV database license, operating platform, and six bimonthly CD-ROM disks for AMS API and DPV API.

Additional Address Matching System Application Program Interface (AMS API) Developer's Kit and Additional Delivery Point Validation Application Program Interface (DPV API) Developer's Kit

This kit is required when the user requests additional operating platforms for the AMS API and DPV API Developer's Kit. For example: If the user originally purchased the W32 platform and later requested the SUN platform, this fee will be paid.

Additional Address Matching System (AMS) ZIP+4 Database License

If you are using more than one copy of the AMS ZIP+4 database files at the same time, you will need to purchase additional ZIP+4 database licenses. The AMS ZIP+4 database files are as follows: ZADRFLE.DAT, ZADRFLE.NDX, ZXREFDTL.DAT, CTYSTATE.DAT, CTYSTATE.NDX, ZIP5FLE.DAT and ZIP5FLE.NDX. Use the factor table below to determine the factor to enter on the front of this order form.

Additional Delivery Point Validation (DPV) Database License

If you are using more than one copy of the DPV database files at the same time, you will need to purchase additional DPV database licenses. The DPV database files are as follows: DPHE.HSA, DPHE.HSC, DPHE.HSF, LCD.NDX and LCD. Use the factor table below to determine the factor to enter on the front of this order form.

Additional CD-ROM Discs - includes, generic or custom CD-ROM discs for AMS API, DPV API and eLOT

Order the number of additional CD-ROM discs required for internal use. You must have a minimum of one AMS ZIP+4 database license, DPV database license and/or eLOT database license for each CD-ROM disc ordered. Subsequent bimonthly releases do not need to be ordered until they occur. If you only use the single CD-ROM disc that comes with the AMS API and DPV API Developer's Kit, please leave blank.
